EMPOWERING SUPPLEMENT BRANDS

Your private-label-professionals for
nutritional supplements

THE COMPANY

Koordination Krafticus GmbH has become specialized in the development and production of private label products in the nutraceutical, health and sports supplements industry. Almost 20 years ago, Krafticus evolved from the original food production facility of their parent company Theodor Rietmann GmbH. Today Krafticus GmbH stands strong on their own two feet. A highly qualified and

KNOW-HOW SINCE

1967

motivated team will help in the process of creating your own private label products: from the stages of development in our laboratory, to customized packaging, to the production of your made-to-order product.

High quality, certified and 100% made in Germany.

PRODUCT RANGE

HIGH PROTEIN POWDERS : AMINO DRINKS

MEAL REPLACEMENTS : PRE AND POST WORKOUT DRINKS

WEIGHT GAINER : BEAUTY DRINKS : DIET POWDERS

RECOVERY DRINKS : SPECIAL PROTEIN MIXES

MINERAL POWDER MIXTURES : BOOSTERS

Working closely and thoroughly with you, we produce custom-made powder mixtures exactly on point, to suit your expectations. From the get go, you are involved in the detailed formulation, the look and taste of these mixtures, resulting in a product that is 100 percent unique in design. With over 3000 raw materials of the highest quality in stock, we have a wide range of materials available for your products. All products are produced fresh, made-to-order. Hundreds of flavour options and a variety of sweeteners provide a customized taste for your high protein powders, diet drinks, boosters or beauty drinks. Vegetarian and vegan products are also available.

CAPSULES

The recipes for a capsule formulation are developed 100 percent corresponding to your wishes. A quick and uncomplicated collaboration directly with our developers ensures a smooth process to your finished product. Once the development is finalized the capsules are filled to the exact amount, labeled and packed on our fully automatic machines. Capsule sizes are available in 1, 0, 00 and 000 as hard gelatine capsules or cellulose veggie capsules, suitable for vegetarians. In addition to a selection of different capsule shell colours, an imprint (such as a logo) is possible as well. We also supply readily accessible capsule formulations for the sports and health industry.

FUNCTIONAL FOOD

Innovational thinking and new products are a big part of Krafticus. Functional food such as protein breads, protein pizza wraps, protein pancakes, protein soups, protein muesli and protein pasta have secured their place on the market. New creations are continually being developed. Choose from an existing product within our portfolio or work with our team to develop a highly specialized, unique product of your own.

PACKAGING

All products are packed individually based upon customers' wishes. The packaging materials comply with the necessary EU certification for packaging of foodstuff, so you know your finished products are safe in all aspects.

In terms of powders, we are able to fill in the sizes from 10 g to 10 kg bags. Standup bags are available in black, white and silver, with additional colours or printed bags also available upon request. Small sample sachets can be produced easily, as well as the delivery of bulk in Big Bags up to 400 kg. We have a wide range of PET and HDPE jars on stock from 200 ml to 10 liter jars for powders, as well as for capsules. All jars are sealed with an induction seal lid and a neck sleeve. Branded neck sleeves, with a company name or logo, can be arranged starting from a certain amount. All bags and jars include ink jetting with the necessary best before and batch number allowing for easy traceability.

Of course, we can also produce products with body or full body sleeves. In that respect, we are happy to provide our customers with external specialists for the production of these sleeves. Regarding the production of your labels, we have a wide range of professional contacts, or you may produce with your desired printing company and let the labels be sent to us. Krafticus will then take care of the labeling, so that the product you will receive is labeled, finished and ready for the market.

THE STEPS TO YOUR PRODUCT

5 STEPS TO CREATE YOUR OWN UNIQUE PRODUCT
